### REASONS FOR ALLOWANCE

5. The following is an examiner's statement of reasons for allowance:  
Examiner finds Applicants' arguments on pages 5-9 of the "Reply Under 37 CFR 4 1.116" received 18 August 2005 concerning a directory server persuasive as applied to

independent claims 1, 10, and 18. The prior art from Stokes et al. ("The LDUP Replication Update Protocol"), Oulid-Aissa et al. (U.S. Patent No. 5,835,757), and Long et al. (U.S. Patent No. 5,805,822) does not anticipate nor render obvious the recited elements in light of claims 1, 10, and 18. In particular, Stokes, Oulid-Aissa, and Long do not teach the limitation "wherein the change sequence number is a tuple comprising a timestamp portion, a sequence number portion, a replica identifier portion, and a sub-sequence number portion, and wherein the timestamp portion comprises a network offset component, wherein the network offset component is incremented when a first logical time on the consumer server is greater than a second logical time on the supplier server."

### **CONCLUSION**

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
